Hello everyone,

I am delighted to start a conversation with you today. I'll be here at CHF for a few months as interim CEO to allow time for an executive search for a new ongoing CEO. If you want to know more about me, my Linked In page is a good place to start.

Consultation on Medicare, health funding and bulk billing

The new Minister is doing some information gathering to understand how Medicare is working for people, how to make health care more affordable, reduce wait times and get people better access to their health services.

It is likely he will be wanting to hear from you.

If you want to get involved with any of these conversations about how health care is funded and how it should work, email us on communcations@chf.org.au and we will let you know how you can be involved.

Preventive Health Engagement Strategy consultation

What is the best way for policymakers to engage with young adults?

Would you like to be a part of a project to help government understand this?

We are working with the Mitchell Institute at Victoria University on a project about engagement and preventive health. We would like to hear from young people (aged 18 to 29 years old) about your experiences with government on health policy – and the experiences you would like to have.

This consultation will be a zoom workshop on Thurs 15 Sept from 5:00 pm - 6:00 pm (AEST) and is an unpaid, voluntary contribution.

Contact Tammy Wolffs, Senior Policy Officer t.wolffs@chf.org.au if you have any questions.

Farewell to Luke Catania

Our National Youth Health Forum Coordinator, Luke Catania, has left CHF for new opportunities.

Luke joined CHF in early 2021 and we thank him for his enthusiasm, support and ideas over the last year or so, and the critical role he played in organising the Youth Health Forum Summit in Sept last year.
